

PRODUCT SPEC SHEET

Product Description:	REDUCER
Product Codes:	U0010

U0010 – REDUCER

U0010 is a reducer that can be added to any Zeller+Gmelin UV curable ink to reduce tack and viscosity.

Addition – 1 to 5%

QUICK TIP

U0010 is very effective when used in 1% increments. Caution! Adding too much reducer can adversely affect color strength and increase dot gain.

PRINT CHARACTERISTICS

- VOC's – Less than 1%
- EN71.3 Compliant
- CONEG Compliant
